

**N**ovant Health UVA Health System is committed to giving back to the communities we serve, supporting our patients, their families and our team members.

Investments in strategic partnerships with nonprofit organizations that address identified health needs help to expand the reach of Novant Health UVA Health System’s mission outside clinic and hospital walls.

**T**he goal of our health and human services investment priority is to improve the health of individuals in our community by promoting health, healing and treatment in response to identified community health needs.

**R**esponding to the health needs of our communities, especially to the most vulnerable among us, is central to the mission of Novant Health UVA Health System. We strongly believe in our role as a socially responsible healthcare system which involves partnering with nonprofit organizations to improve health outcomes across our footprint.

**I**dentified community health needs vary across the communities in which Novant Health UVA Health System serves and include, but are not limited to:

- » Chronic disease
- » Mental health
- » Diabetes
- » Obesity
- » Access to care

**T**hrough strategic investments in nonprofit partnerships, we seek to:

- » Improve access to healthcare services
- » Raise awareness of and encourage healthy behaviors
- » Address preventable risk factors
- » Support patients and their families’ needs through community-based programs

**Request for Proposal Application Period**

August 1 to September 14
